Trains

For the train connections and prices please check: <https://www.renfe.com/es/en>

Pamplona Railway station is located close to the city centre. From the station, you can reach the city centre by bus or taxi, where all the hotels we have recommended are located.

1. Taxis are usually parked outside the station.
2. We recommend taking the **bus line number 17**, which has a **frequency of 20 mins** and has **several stops** that may be useful for you. You can also do the search on google and it will give you real-time connection and timetables.
